

IIPSM V1.2 Release Notes 8/1/2017

The new search past capacities by Gas Day feature has been made to the Interactive Interstate Pipeline System Maps. Below is how it works:

1. Go to the "Past Capacity Finder" tab
2. Choose a starting date from the "Begin Date" list. (for example: 2/1/2017)
3. Choose an ending date from the "End Date" list. (for example: 2/7/2017)
4. You can narrow down to one or more points from the "Location" list. (for example: Ixonia)
5. The historical Capacity Quantities Information you specified for either past individual date or a date range will be displayed and reported including:
 - a. KPI (Key Performance Indicator).
 - b. Detailed capacity grid report.
 - c. Capacity Comparison bar chart.
